EDUCATION

Shri Mata Vaishno Devi University

July 2023 – June 2027

Bachelor of Technology in Computer Science and Engineering

Katra, J&K

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (Java), Software Engineering.

TECHNICAL SKILLS

Languages: Dart, JavaScript, Python, C

Frontend: Flutter, React, HTML, CSS, Bootstrap

Backend: Node.js, Express, Firebase Cloud Functions (serverless), REST APIs, Webhooks

Databases: Cloud Firestore, MongoDB, MySQL

Cloud & Integrations: Firebase (Auth, Storage, FCM), Razorpay, Meta WhatsApp Cloud API, Gemini API

Developer Tools: Git, GitHub, Postman, Android Studio, VS Code

EXPERIENCE

Mobile Application Developer

May 2026 – July 2026

LEAD – LJK Economic Growth & Development Dialogue (Hybrid)

Jammu, J&K

- Built and shipped **LEAD Sangam**, a meeting & member-management platform (Flutter + Firebase) serving a ~200-member organisation, as the lead developer – an Android app and a live web dashboard on one backend, with ~20 Cloud Functions (Node 20) and role-based access (admin / coordinator / member).
- Integrated the Gemini API to rank the member directory by relevance for each meeting; implemented Google Sign-In and phone-OTP authentication, FCM push notifications, and transactional email.
- Launched a role-aware WhatsApp bot (Meta Cloud API) on the same backend, live on a production number – debugging inbound delivery, adding HMAC signature verification, and enforcing reliable structured JSON output.
- Delivered a full v1.0.0 handover (documentation, repository transfer, infrastructure); web dashboard live at lead-sangam.web.app.

Full Stack Web Developer Intern

June 2025 – Aug 2025

Indian Institute of Technology, Jammu (On-site)

Jammu, J&K

- Built a MERN-based lost-and-found platform under IIT Jammu faculty mentorship, replacing informal WhatsApp/Telegram channels with a centralized, searchable campus system.
- Developed responsive React/Bootstrap interfaces and integrated REST APIs against a MongoDB backend, with Google OAuth 2.0 and role-based protected routes.
- Collaborated on feature development and Git-based version control across the frontend and backend as part of a small team.

PROJECTS

Shramik – Local Service Marketplace (Android) | *Flutter, Dart, Firebase* | [GitHub](#)

- Built a role-based Android app connecting customers, workers, hardware approvers, and admin, using pincode-based discovery that works without GPS on low-end devices.
- Used Firebase Auth, Cloud Firestore (real-time), and Storage for secure login, live job tracking, document-backed worker verification, and approver endorsement.
- Implemented the full job lifecycle – posting, acceptance, UPI payment-proof, automated commission calculation, and WhatsApp complaint escalation; tested on-device against a live backend and released as a v1.0 APK.

EXTRACURRICULAR

Coordinator, Aayojan

Sep 2025 – Present

Shri Mata Vaishno Devi University

Katra, J&K

- Lead event planning and technical support for campus events and student initiatives.

NCC Senior Division Cadet (Army Wing)

2024 – 2027

6 J&K BN NCC, Shri Mata Vaishno Devi University

Katra, J&K
